

...EACH TANK HAS BEEN RIGOROUSLY TESTED.

TANKMAKERS' commitment to water tank design, research and development ensures

that each tank has been rigorously tested before it leaves the factory. The compliance sticker AS/NZS4766:2006 is our stamp of approval and your guarantee of quality. So look for the mark, if it doesn't have it, it's not a genuine TANKMAKERS' Tank.

Note: AS/NZS4766:2006 standard only applies to upright cylindrical tanks and does not cover slimline tanks.

WHAT DO I NEED TO KNOW ABOUT TANKMAKERS?

WHAT ARE TANKMAKERS' TANKS MADE FROM?

An extremely tough but flexible type of plastic called polyethylene, which has been used in the industry for liquid storage for many years.

IS A TANKMAKERS' TANK SAFE FOR DRINKING WATER?

Absolutely safe! Polyethylene is food grade approved, and is the same material that is used for water pipes.

WILL MY WATER BE TAINTED?

No. Many companies use polyethylene for packaging of milk, soft drinks etc. In addition, TANKMAKERS' Tanks are not made from recycled or reconstituted materials that may once have contained harmful chemicals.

HOW LONG WILL A TANKMAKERS' TANK LAST?

Over 20 years. All TANKMAKERS' tanks are UV stabilized to protect them from the sun and ensure long life.

DO I NEED A TANK STAND?

No. Just a firm foundation with no sharp or protruding objects. The overflow should be piped away to prevent erosion.

HOW STRONG ARE THEY?

TANKMAKERS' Tanks are extremely strong and long-lasting. They won't rot, crack or rust. And since they're moulded in the one piece, there are no joints or weak points where leaks could occur. In addition, the colour is permanently moulded in, so your tank will stay looking great.

WILL ALGAE GROW INSIDE?

No. Specially designed tank grade polyethylene, excludes light necessary for algae growth.

HOW DO I ORDER A TANKMAKERS' TANK?

Easy –just visit our website www.tankmakers.com.au to find your nearest dealer or phone 1800 720 362 today!

With almost 40 years of tested design and water storage solutions the proven **TANKMAKERS** range provide the right answers for all your Domestic, Agriculture, Molasses and heavy duty poly tank requirements.

UV-stabilised to withstand the harsh Australian sun the rotary moulded tough food grade polyethylene plastic exceeds the Australian standard AS/NZS4766:2006 for upright polyethylene tanks.

A **TANKMAKERS** tank won't crack, fade or rust and their one-piece construction makes them exceptionally strong and easy to clean.

Even the largest **TANKMAKERS** poly tank can be easily maneuvered before installation and once connected will give years of trusted water storage.

All tanks have mosquito proof leaf strainers and overflows, and are complete with BSP threaded outlets.

TANKMAKERS ARE MORE THAN AUSTRALIAN OWNED...

Available from authorised **TANKMAKERS** dealers, your new tank will be delivered direct to you or ready for collection from your nearest dealer.

TANKMAKERS are more than Australian owned, we support local business and their customers, doing it right from our factory to you.

All **TANKMAKERS** tanks carry a no nonsense manufacturer's repair or replacement ten year warranty for round tanks and five years for slimline tanks, for full warranty conditions and installation details please visit our web site www.TANKMAKERS.com.au
