

Depend on Davey

DAVEY

APPLICATIONS

Automatic pressure system for:

- Household and domestic water supply
- Farming and agricultural water systems
- Irrigation and turf watering systems
- Automatic general water transfer

WHY CHOOSE THE Davey HM Pressure System?

Horizontal multistage centrifugal pump with all hydraulic parts in stainless steel:

- Suitable for high water temperatures
- Corrosion & wear resistant

Axial suction & vertical discharge:

- Compact design
- Easy to install

Stainless steel impellers with high efficiency impeller profile & thick self-centring impeller neck rings for:

- High efficiency
- Reduced power consumption:
- Low noise output

Air purging valve and stage porting:

- Easier priming
- Less susceptible to air leaks
- Improved dependability

Impellers mounted directly on extended motor shaft:

- Maximise performance per stage
- High efficiency
- Long motor & pump life
- Increased wear resistance

Pump casing assembly attached to motor bracket at 8 points with o-ring seal:

- Complete stainless casing
- Better sealing
- Longer service life

Davey built, totally enclosed fan cooled (TEFC) electric motor:

- Single-phase motors have built in thermal overload protection with automatic reset and 1.8m long power lead and Australian 3 pin plug
- Sealed and greased for life motor bearings
- Over sized drive bearing
- Longer life
- Easy service
- Economical & quiet running

Tested in compliance with
AS/NZS 4020
for use in contact with safe drinking water

HM Series Water Pressure Systems

Pressure Switch & Torrium2

Compact, all stainless steel horizontal multistage centrifugal pump pressure system control options to suit application. Flows to 430lpm and heads to 65m.

Torrium2 controlled HM Series provides a constant flow water supply system with an all stainless steel pump unit. The Torrium2 is adaptive, eliminating cycling, provides loss of prime protection and over temperature cut out. Pressure tanks can be added if site conditions require additional draw off.

OPERATING LIMITS	
Maximum continuous flow rate	200 lpm
Maximum operating pressure	700 kPa*
Maximum current	10 amp
Cut-in pressure range	80% of pump shut-off head
Maximum water temperature	65°C

*Dependent on optional tank pressure rating, operating pressure to 820kPa may be achieved.

HYDRAULIC PERFORMANCE

HYDRAULIC LOSS

INSTALLATION

Pressure switch settings assume zero suction. If the pump is to be operated on suction lift or positive inlet pressure application, pressure settings must be adjusted to suit.

PACKAGED SETS

Complete packaged systems are available on request. Pressure tank and pump mounted on common base plate.

Optional control panels also available for single and three phase models.

ELECTRICAL DATA	
Pump	
Speed	2900rpm
Supply Voltage Single phase Three phase (selected models)	230V ±10% 415V ±10%
Supply frequency	50Hz
Enclosure class HM60-06, HM60-08, HM60-10, HM90-08 & HM90-11 All other models	IP55 IP56
Insulation class	Class F
Torium2	
Voltage	220V-240V ± 10%
Phase	Single
Hz	50 / 60
IP rating	56
Maximum load current	10A
Maximum motor size @ 240V input	1.8kW
Surge protection	Varistor

MATERIALS OF CONSTRUCTION	
PART	MATERIAL
Casing	304 stainless steel
Impellers	304 stainless steel
Stages (casing)	304 stainless steel
Pump shaft	316L stainless steel
Stage centring device	304 stainless steel
Mechanical seal	Carbon/ceramic
Orings	EPDM
Plugs	316L stainless steel
Motor shell & lantern bracket	Aluminium with baked polyester powder coat finish
Motor feet	Xenoy
Fan cowl / rear foot (models up to 1.05kW)	Polypropylene
